Re: Richardson Grove Access Study

Caltrans, in association with the Humboldt County Planning Division of the Community Development Services Department, is soliciting proposals for an access study on Route 101 in Southern Humboldt County. Caltrans and Humboldt County are cooperatively managing this project. We are sending you this letter of interest because we have identified you as a potential qualified consultant.

The selected consultant will prepare an access study using a multi-disciplinary team approach to develop and consider alternative ways of providing safe and economically feasible goods movement, including Surface Transportation Assistance Act (STAA) truck access, and multimodal access to Humboldt County. The study will include a Final Report summarizing alternatives studied and recommended solutions (if one or more of the alternatives studied appear feasible).

If interested, please submit a proposal for the study described in the attached Request for Proposal (RFP) packet to:

John Miller
County of Humboldt
Community Development Services, Planning Division
3015 H St.
Eureka, CA 95501

Written question submittals for this study must be submitted prior to 4:00 PM on June 22, 2007 and proposals must be submitted prior to 4:00 PM on June 22, 2007. Proposals will be screened based on criteria included in the RFP packet, and consulting firms with the highest rated proposals will be interviewed by a panel with representatives from Humboldt County Planning Division, Caltrans, District 1, Humboldt County Association of Governments (HCAOG), and Mendocino Council of Governments (MCOG).

If you have any questions regarding the RFP, or about Richardson Grove Access Study, please call Sonja Kin, Caltrans Contract Management Staff, at (707) 441-4657 (or email sonja_kin@dot.ca.gov).

Thank you for your interest,

John Miller
County of Humboldt
Community Development Services, Planning Division
